Agile Methodologies: Scrum, Kanban

Education

03/2013

Gujarat University

Ahmedabad, Gujarat

Bachelor of Computer Applications

03/2016

Gujarat Technological University

Ahmedabad, Gujarat

- Spearheaded the development of an BLE-IOT based application for Health-Based Client using Kotlin, MVVM and Hilt Dependency Injection.
- Led a team of 4 developers in creating and maintaining Android applications
- Collaborated closely with UX/UI designers to ensure seamless integration of user interfaces and optimal user experiences.
- Implemented various third-party APIs and SDKs to enhance app functionality and performance.
- Participated in regular code reviews, ensuring high code quality, adherence to coding standards, and knowledge sharing within the team.
- Optimized app performance through memory management, background task handling, and efficient network calls.

Opencxcell Technolabs - Senior Android Developer

Ahmedabad, Gujarat

03/2021 - 02/2022

- Implemented MVVM architecture with LiveData and Data Binding, enhancing application scalability and maintainability.
- Implemented Agile methodologies to streamline the development process, resulting in faster time-to-market for products.
- Integrated third-party APIs (e.g., payment gateways, location services) using Retrofit and Kotlin Serialization for efficient data parsing.
- Utilized Kotlin DSL and Kotlin Extensions (KTX) to streamline code and improve readability.
- Optimized application performance with Kotlin Coroutines and Java Concurrency, resulting in a 40% reduction in load times.

Alchemy Technolabs LLP - Senior Android Developer

Ahmedabad, Gujarat

12/2018 - 12/2020

- Developed and maintained Android applications using Java and transitioned to Kotlin to leverage modern language features and improved developer productivity.
- Employed Dagger for dependency injection and Room for database management, enhancing code modularity and performance.
- Integrated Firebase services including Firebase Authentication, Cloud Firestore, and Firebase Analytics for enhanced app features and user insights.

Hyperlink Infosystem - Android Developer

Ahmedabad, Gujarat

01/2016 - 11/2018

- Assisted in the development of Android applications using Java, focusing on bug fixes and feature enhancements.
- Designed and implemented user interfaces using Material Design principles and Android Views.
- Managed database operations with SQLite and supported API integration for diverse app functionalities.
